

Rubbish Screener Survey

Seeking Participants for a Neighborhood Study

Our startup is using technology to track litter trends with the goal of improving the quality of life in neighborhoods. We are looking for participants to take part in a 60-minute usability study to help optimize our technology.

If you are interested in taking part in our study, please complete our [7 question survey](#) to see if you qualify. All who complete the survey will be entered into a raffle for a \$50 Amazon gift card.

Your Name:

Your Email:
